

Managed Print Services

Print Solutions That Power The Modern Workplace

DATA SHEET

OVERVIEW

We work together with you to provide tailored solutions designed to best manage your print environment.

Urban Network's Managed Print Services give you complete visibility and control across your entire print environment. We deliver the right hardware and integrate industry-leading software to create a seamless, end-to-end solution.

With continuous monitoring and regular health checks, our proactive support keeps your print environment running at its best.

URBAN MANAGED PRINT SERVICE INCLUDES:

- **One Monthly Fee** - Control your budget with one monthly bill for all your printer services.
- **Integrated Efficiency** - Selecting the features you want, integrate the service into your company.
- **Fully Automated** - Reduce admin and downtime, no need to ask for toner we simply send you a new one when you need it.
- **Functionality from Day One** - An engineer will visit to install and configure the new printer to your network.
- **Fast and Responsive** - Our remote monitoring service can detect a problem even before you do. If we can't fix it remotely, we'll send an engineer to site to do it.
- **Stay up to date** - We ensure that all updates and critical advancements in print output, supplies, and office needs are adapted to your plan.

Key Benefits
